Subject: Microsoft Settlement

Judge Kollar-Kotally,

I am writing to express my concern regarding the recent Microsoft anti-trust settlement. I work in the advertising industry and do not agree with the Proposed Final Judgement simply because it does not provide ample protection for competitors of the Microsoft giant. Anyone that uses a computer on a regular basis is hard pressed to find alternatives to Microsoft software and services. The company is ubiquitous and far-reaching. The Proposed final judgement must do more to limit Microsoft's ability to crush competition and protect America's free market.
